Retraction Note: Chronic neuroinflammation and cognitive impairment following transient global cerebral ischemia: role of fractalkine/CX3CR1 signaling

Teresita L. Briones^{1*}, Julie Woods² and Magdalena Wadowska²

This article [1] has been retracted by the Editors-in-Chief. Based on the report of an inquiry conducted by Wayne State University and additional analysis conducted by the Office of Research Integrity (ORI) [2], the ORI informed the journal that the first author Dr Teresita L. Briones engaged in research misconduct by falsifying and/or fabricating data by falsely reporting the results of western blot experiments and that data reported in Figures 2A and 2C in [1] were duplicated, reused and falsely relabelled, and claimed to represent different experiments. We have not been able to contact any of the authors.

Submit your next manuscript to BioMed Central and we will help you at every step:

- We accept pre-submission inquiries
- Our selector tool helps you to find the most relevant journal
- We provide round the clock customer support
- Convenient online submission
- Thorough peer review
- Inclusion in PubMed and all major indexing services
- Maximum visibility for your research
